FOR TRAINEES

Employability

Our program graduates are equipped with the necessary skills for immediate project deployment

Practical Exposure

Enterprise-level projects that have application in real-world business and technology

Why skill development?

WORLD ECONOMIC FORUM

With the current pace of technological change, employers estimate that in the next five years, **44%** of workers skills will be disrupted, according to the WEF's Future of Jobs Report 2023.

Six in 10 workers will require training before 2027, with analytical and creative thinking, as well as utilizing AI and big data topping the list of priorities for skills training.

Scope of skill gap

According to [UNICEF](#), nearly three quarters of young people aged **15 to 24** in **92 countries** are **off-track** to acquire the skills needed for employment

UNICEF

Gartner HR research finds **58% of the workforce** will need **new skill sets** to do their jobs successfully

RAMESH KASETTY

An entrepreneur with 25+ years of experience between corporate world and Start-up companies from industries ranging from Aerospace to Education. Co-founded FortunaPix in developing Digital Content for K-12 lesson plans and provide cost-effective "Full Stack Solution", that is tailor made to local learning styles, aligned to local curriculum and that works with local infrastructure capabilities. Understands diverse and remote geographies, and raising education quality to be par or even better than many systems in the developed world along with a passion to solve issues at bottom of the pyramid
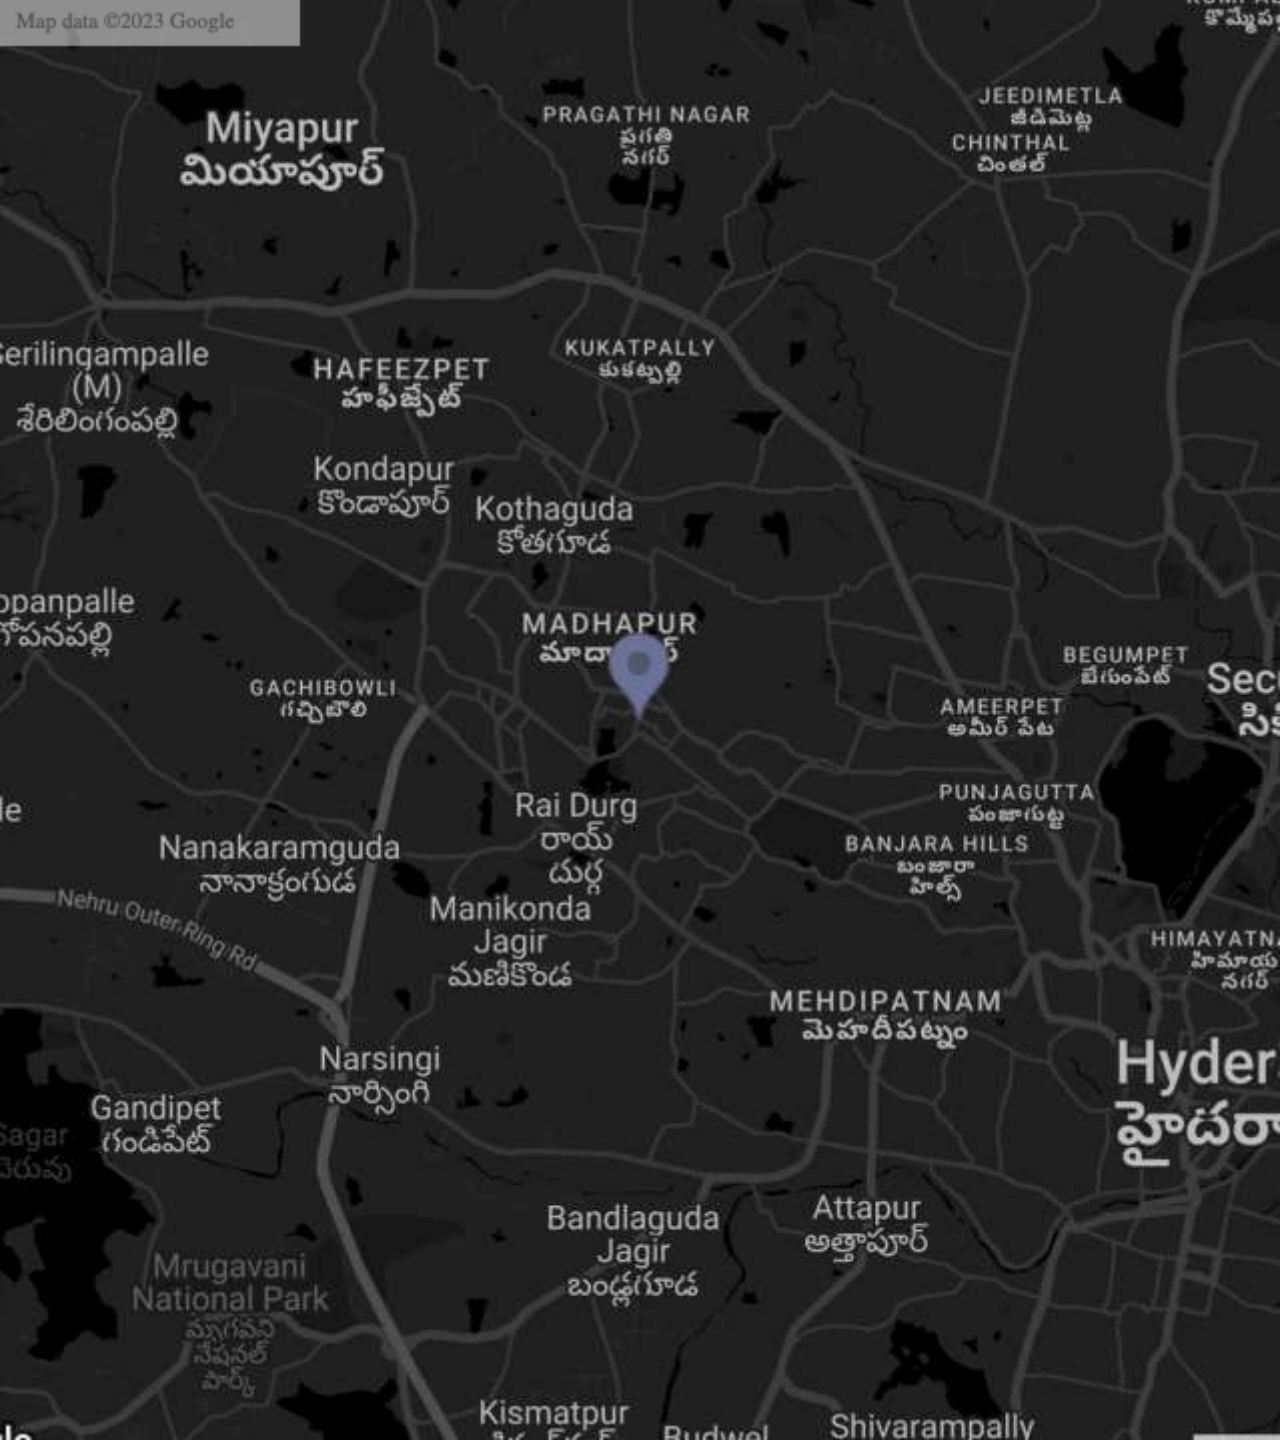

PEND ARMISTEAD

Mr Pend Armistead is committed to helping Community Colleges in the USA in two important ways: First, helping institutions to identify critical high priority issues on a local level that can set the stage for new programs and services; and to develop support for those priorities among elected officials, foundations, and the private sector. Second, by helping to identify new sources of revenue that can mitigate current funding challenges of the Community Colleges

LAKSHMI

Lakshmi has more than 25 years of experience in consulting and operations. Her work experience with various multinational organisations has empowered her to be an entrepreneur with the cross-functional capability to build a successful business.As the founder of Rightworkz Technology & Consulting, over the past 14+ years she has been working on developing a skilled workforce, increasing diversity, and creating equal opportunities while making a significant social impact.
